After October 1, 2021, upon final acceptance of any article for publication, the Requested Article Processing Fee will be $300. It can be waived in special cases by a request addressed to the Editor-in-Chief.

Call for papers volume 2, issue 1, Non-communicable Chronic Disorders and Diseases

2021-02-17

The first issue of volume 2 for the *IJVTPR* focuses on ingredients in vaccines that are known or suspected of interacting with factors involved in growing epidemics of non-communicable chronic disorders and diseases (NCDs) as noted in the February 17, 2021 article at this link in The Defender.

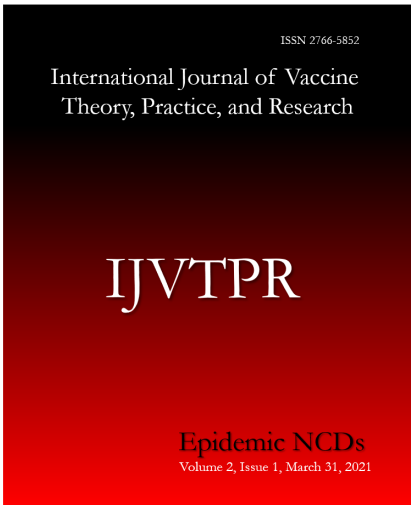
Current Issue

Vol. 2 No. 1 (2021): Epidemic NCDs



This issue begins to explore the language, policies, practices, and science examining the range of known interactions between some of the toxicants in vaccines and other factors known or reasonably believed to be involved in the increasing number and scope of epidemic non-communicable chronic diseases/disorders (NCDs).
