Data released today by the Centers for Disease Control and Prevention (CDC) showed that between Dec. 14, 2020, and Oct. 29, 2021, a total of **856,919 adverse events** following COVID vaccines were reported to the Vaccine Adverse Event Reporting System (VAERS).

The data included a total of **18,078 reports of deaths** — an increase of 459 over the previous week. There were **127,457 reports of serious injuries**, including deaths, during the same time period — up 3,570 compared with the previous week.

Excluding “foreign reports” to VAERS, **634,609 adverse events**, including **8,284 deaths** and **52,685 serious injuries**, were reported in the U.S. between Dec. 14, 2020, and Oct. 29, 2021.

Of the 8,284 U.S. deaths reported as of Oct. 29, **10% occurred** within 24 hours of vaccination, **15% occurred** within 48 hours of vaccination and **26% occurred** in people who experienced an onset of symptoms within 48 hours of being vaccinated.

In the U.S., 418.6 million COVID vaccine doses had been administered as of Oct. 29. This **includes**: 246 million doses of **Pfizer**, 157 million doses of **Moderna** and 15 million doses of **Johnson & Johnson (J&J)**.

The data come directly from reports submitted to VAERS, the primary government-funded system for reporting adverse vaccine reactions in the U.S.

Every Friday, **VAERS** makes public all vaccine injury reports received as of a specified date, usually about a week prior to the release date. Reports submitted to VAERS require further investigation before a

causal relationship can be confirmed. Historically, VAERS has been shown to report only [1% of actual vaccine adverse events](#).

CDC signs off on Pfizer COVID vaccine for kids 5-11

CDC Director Dr. Rochelle Walensky on Nov. 3, [endorsed](#) the Advisory Committee on Immunization Practices' (ACIP) recommendation that children 5 to 11 years old be vaccinated against COVID with Pfizer's pediatric COVID vaccine.

The [younger age group](#) will receive one-third of the dose authorized for those 12 and older, in two shots administered at least three weeks apart. The doses will be delivered by smaller needles and stored in smaller vials to avoid a mix-up with adult doses.

The CDC was [concerned](#) that COVID cases in children can result in hospitalizations, deaths, [multisystem inflammatory syndrome](#) (MIS-C) and complications, such as "long COVID," in which symptoms can linger for months.

During the [ACIP meeting](#), the CDC said a total of [745 children under 18 have died](#) of COVID since the beginning of the pandemic — although the COVID team admitted 79% were confirmed to be hospitalized for COVID, while the rest were hospital admissions for other causes.

The CDC's authorization was based mostly on a Pfizer-BioNTech study of 4,600 children worldwide, of whom approximately 3,100 got the low-dose vaccine and about 1,500 got a placebo. Of the 3,100 children in the vaccine group, only 264 children were tested for antibodies to determine the efficacy of Pfizer's vaccine.

Vaccine-injured speak out at event hosted by Sen. Ron Johnson

During an [event hosted Tuesday](#) by U.S. Sen. Ron Johnson (R-Wis.), people whose lives were ruined by COVID vaccines said they feel abandoned by a government that told them it was their patriotic duty to get the shot.

Johnson held a [discussion](#) with a panel of experts, including clinicians, scientists, lawyers and patient advocates, and with people injured by [COVID vaccines](#), who gave powerful testimonies about their experiences.

Johnson and the expert panel discussed the importance of [early treatment for COVID](#), healthcare freedom and [natural immunity](#), the impacts of mandates on the American workforce and the economy, COVID vaccine safety concerns and the lack of transparency from federal health agencies in response to his [COVID oversight requests](#).

'Truth isn't being told about these vaccines,' says cancer survivor injured by Pfizer vaccine

In an [exclusive interview](#) with [The Defender](#), Diane Ochoa, a 63-year-old cancer survivor from Georgia said she was diagnosed with rare autoimmune disorders [Guillain-Barré syndrome](#) (GBS) and [chronic inflammatory demyelinating polyneuropathy](#) (CIDP) after getting her second dose of Pfizer's COVID vaccine.

On April 16, Ochoa got her second Pfizer dose, through her employer and, within 45 minutes, felt ill. She experienced nausea, extreme diarrhea and pain throughout her entire body that progressively worsened and ravaged its way throughout her body.

Ochoa saw numerous doctors before she was diagnosed and has spent the past six months trying to heal from her conditions, which left her in "horrific pain," unable to walk without assistance or provide for herself.

Ochoa said she's concerned about the "lack of studying they've done on this vaccine," and about the potential for others to suffer long-term consequences even if they didn't suffer an immediate repercussion as she did.

"My nightmare at night is that our littles might have to endure this because the truth isn't being spoken about these vaccines," Ochea said.

Schools are paying kids to get COVID vaccines

Some schools are paying kids to get vaccinated against COVID. [According to TIME](#), schools in Phoenix are giving out \$100 gift cards. In Los Angeles, students can win gift cards or a free prom or homecoming ticket if they get the shots.

Louisiana is [offering \\$100](#) to children who get vaccinated, and officials in San Antonio, Texas, announced parents can claim a \$100 gift card for H-E-B grocery stores. In New York City, [children as young as 5](#) are getting paid to get vaccinated.

"We really want [kids to take advantage](#), families take advantage of that," New York Mayor Bill de Blasio said Thursday. "Everyone could use a little more money around the holidays. But, most importantly, we want our kids and our families to be safe."

Some critics say paying kids to get vaccinated is bribery, but school districts incentivizing kids feel it makes sense because it keeps students and staff safe.

[Children's Health Defense](#) asks anyone who has experienced an adverse reaction, to any vaccine, to file a report following [these three steps](#).

I think it's likely that all those today that are participating in making children take these shots will not be thought of as heroes in the future by this generation, but rather they will be thought of as evil villains.

Power & Control.

Even if they were not printing it, or controlling those who do, when you have billions of \$, you are right, money does not matter.

Klaus Schwab, head of the World Economic Forum spelled it out in his 2 books:

'The 4th Industrial Revolution'

'COVID-19 and the Great Reset'

Even their ads say, 'In the future you will own nothing, and be happy.'

And by 'future', they mean 2022 or 2023

Billy Gates. has revealed his racism and his intentions in several speeches given on TED Talks and elsewhere. One that was perhaps a little too blunt about using 'V-----s' for population control was later edited but the original is still

Death doesn't matter to unicorns, easter bunnies and santa babies either. An FDA is not real. It's people that don't care about death. Now go do some research and find out who are these people calling themselves, FDA, etc..

Deaths **DO** matter to them. It's their end game. It's their roll out of the "Great Reset". It's their planned massive global population reduction.

All the terrified fools worried about the pandemic, parading around in their masks of subservience, are the very reason why these psychopaths are so-far getting away with this death march. They are marked for death so that the psychopaths can have this planet to themselves, and they are mindlessly going along with it!

Not before they suck every last dollar out of them for all of the hospital visits and the 100's of medications they will be on until they ultimately die a premature death. They are creating 1000's of new patients everyday with each vaccine they give.

I was just reading how LAUSD will have mobile vaccination clinics rolling out to campuses starting Nov 8.

I am sick to my stomach.

The world has truly lost their gosh darn minds. I am deeply offended by the On Campus vaccination of minors-- with minimal parental consent

(intentional) and the desecration of medical privacy. [BigBrother loves when you make tiktok videos of Vaccination Day. Show us that card so we can verify your lot # in the database.]

Just like I was horrified by the LIVE ON TV celebrity vaccinations.

If you think they would actually inject the president of USA with an investigational genetic vaccine-- live on TV-- at Biden's age, and in his neurodegenerating condition--- then clearly you haven't watched enough Inside The Secret Service documentaries. Or been to the CIA Spy Museum. Or listened to their podcast, lol.

Our govt would never do something that legitimately risky on camera.

Everything we see on TV is a scripted, choreographed performance. Written by a team of professional propagandists. Performed by puppets, pretending to be [s]Elected "Leaders".

You're absolutely correct. It's a psyop. If one person touches any of my children they will have to defend themselves for their actions. The CEO of Pfizer certainly has a lot of stories that he hasn't been arrested on Friday! (Albert Bourla) Snopes has debunked it. Their operation is falling apart. Do not give up. Do not lose hope. Pray. Fight for your rights! Stand up for those who are weaker than us! Continue to stay courageous and we will be on the other side of this because of doing these things. Stay together and don't let the evil ones divide us. We elect public servants and we will strip them of everything they have. They are the ones who need to be afraid. We have the power and We the People need to remember that! 🇺🇸🙏❤️ Wherever you are we are together in spirit.

Mark 11:23 "Have faith in God," Jesus said to them. 23"Truly I tell you that if anyone says to this mountain, 'Be lifted up and thrown into the sea,' and has no doubt in his heart but believes that it will happen, it will be done for him. 24Therefore I tell you, whatever you ask for in prayer, believe that you have received it, and it will be yours...." Time to put our faith to the test.

It's less insanity, I suspect, and more akin to demonic possession. The wild and often violent obsession with jabbing everyone- pregnant women, children, the aged and infirm- is simply Satanic. Each soul they genetically modify is claimed for their master. I know how it sounds. Last month a Greek monk recounted his hellish experience after taking the Covid jab. He didn't suffer a health crisis, but a spiritual one. He described it as possession. I saved the story to my local drive because I figured it would be quickly scrubbed from the Net, and it was. This is not about money, and certainly not about anyone's health. It's about turning people into automatons.

My father-in-law went to get his booster shot on Tue Nov 3. A few hours

my father-in-law went to get his booster shot on the 10th. A few hours later, he died suddenly and unexpectedly. The medical team came to the house but elected not to do an autopsy since he died instantly when he collapsed. Instead, he was sent to the morgue and that was that. His death will never be traced as quite possibly related to the booster shot. But the timing sure as heck is quite a "coincidence".

How many deaths from this jab happen in this way?
If death happens immediately after the jab it's the damned jab. If it happens on an otherwise healthy person it's the damned jab. But the propaganda has been such that people immediately DOUBT it's the jab when a loved one dies right afterwards
I hope you guys reported it to VAERS

8 ^ | v • Reply • Share >

h5mind → Kay 56 • 7 days ago

VAERS has been famously and notoriously weak about reporting vaccine side effects since its inception. Prior to Covid, it was only covering 1% of vaccine injuries. Given the fortunes at stake this time around, it's very unlikely that percentage has improved. And yet the CDC continues to make policy based on VAERS data. The government did recently add Covid-19 shots to their drug injury compensation fund at [hrsa.gov/cicp](https://www.hrsa.gov/cicp) although apparently ZERO claims were paid out last year.

Hold up there with the attitude. I am the LAST one making excuses for this murder juice, thank you very much. Go back and read that until your reading comprehension kicks in. What I SAID was I WOULD BE afraid of wondering if it played a part in the death of there was no autopsy. Meaning, that people are not stupid. People know that there were deaths from 'just' a heart attack or 'just' a stroke WAAAAAY before this crap came along to be an instigating factor. Therefore the man's family will not be able to say with a definite degree of certainty (in their OWN MINDS) what caused the guy to die. It doesn't matter what I think or what you think. Our opinions don't matter to that family. What matters is whether they can find a degree if comfort knowing one way or the other.

Watch where you jump before you jump.

In 18 months, even taking into account the horribly underreported numbers in the VAERS database, there haven been more Covid-19 vaccine injuries and deaths in the last year and a half than in the last 18 years for ALL vaccines combined.

Dominic John Circolone → elway0123456789 • 9 days ago

This can be explained just as easily as an asymptomatic pre-

existing condition that decided to show itself suddenly and unexpectedly.

The human existence is very frail. Children are now having heart attacks and strokes.

The science daddies have been addressing the frail human condition for some time now and have developed a cure.

There is not one fatal in a shot, it has become an allergy
