309 Athlete Cardiac Arrests, Serious Issues, 177 Dead, After COVID Shot

Update 10 Dec – 14 Dec: Added CJ McCollum, Adam Bounds, Stephanie Gard, Drake Geiger, chart updated, Demaryius Thomas, Brock Vogel, Keanu Breurs, Chuck “Kali Muscle” Kirkendall, Pavel Karpf, Lise Vidal, Eric Turner, Michele De Vecchi. Thanks to readers checking, thankfully, Sage Canaday did not die – he was in bed due to pneumonia and blood clots, and then overnight stay in hospital which he says is not vax related, but which started to happen a short time after his second Pfizer shot. His entry remains below, but with the red death marker removed. Ivan Douglas, former Buckeyes football player changed from affected by vax to May or may not, and Dead, because no proof yet he was vaxed, but apparently caught COVID.

It is definitely not normal for young athletes to suffer from cardiac arrests or to die while playing their sport, but this year it is happening. All of these heart issues and deaths come shortly after they got a COVID shot. While it is possible this can happen to people who did not get a COVID shot, the sheer numbers clearly point to the only obvious cause.

The so-called health professionals running the COVID shot programs around the world keep repeating that *“the COVID shot is a normal vaccine and it is safe and effective.”*

So in response to their pronouncement, here is a non-exhaustive and continuously growing list of young athletes who had major medical issues in 2021 after receiving one or more COVID shots. Initially, many of these were not reported. We know that many people were told not to tell anyone about their adverse reactions and the media was not reporting them. They started happening after the first COVID vaccinations. The mainstream media still are not reporting most, but sports news cannot ignore the fact that soccer players and other stars collapse in the middle of a game due to a heart attack. Many of those die – about 50%.

Sidelined Athletes with “Illness” Not Included in This Report

Many sports teams now have multiple sidelined players. There are dozens of them. The teams and Big Media are hiding this, thinking nobody will notice. These damaged players will not be shown in this report if they are reported only as “illness” but they would be worth tracking, because it is not normal to have so many. Their immune systems are likely to have been compromised by “something,” so they will be open to many things they would normally have been able to shrug off. We leave it to others to track these – we have our hands full handling the investigations for this list, going back in time trying to find new information that wasn’t available before, and making minor corrections as they are discovered. It will all come out eventually.

Athlete collapses and deaths chart to 10th December 2021.

May Or May Not Be Vax Related

There is insufficient information to decide if any of these collapses or deaths are related to COVID vaccinations. More investigation is needed. Any help would be appreciated because keeping with with the ongoing investigations isn't easy. These are listed here because they appear in some lists as vax-caused, but we believe there is either currently insufficient information to decide or other explanations seem to overrule vax-caused, such as cancer.

Update: Nov 9, 2021, Five added, two more deaths.

Update: Oct 28, Rugby player Tevita Bryce, listed as dead, was actually revived after his heart stopped for 28 minutes

That is the current list ... all these athletes have suffered heart problems after COVID shots. At the time of initial writing, 28 died. That was not normal, but then, 10 days later, 56 deaths were listed, and the numbers are climbing. Any other real vaccine would have been pulled off the market long before now. The media would be asking questions. They would be pressuring governments. But they are not. And governments are continuing on and running TV and radio and newspaper ads encouraging people to get their 1st, 2nd, 3rd, 4th

shot. Perhaps that is why the mainstream media are saying little, because they are collecting government money for ads?

The deaths and severe reactions will continue until so many people die that it becomes obvious the shot is 10x to 100x worse than the virus it is supposed to treat.

These athletes are the canaries in the mine that warn us of imminent danger. They are being hidden so the people who are not paying attention do not see the warning.

We only see the athletes because they are in the spotlight. The nobodies – i.e. most citizens – do not make the news.
