Dr. Stella Immanuel, a COVID-19 frontline doctor from Houston believes that the whole "pandemic" is a Trojan Horse for vaccines designed by Bill Gates to depopulate the earth.

Dr. Stella went viral for speaking the truth about the life-saving COVID-19 treatment Hydroxychloroquine and her ongoing bravery in this fight against the establishment.

Earlier this month, The Gateway Pundit correspondent caught up with Dr. Stella in Tulsa, Oklahoma to discuss the satanic vaccine mandates.

Conradson: So, how with the new vaccines coming out, vaccine mandates. What does that make you think? how do you feel about vaccine mandates?

Immanuel: I actually think that the whole pandemic was a Trojan Horse for vaccines. COVID, from day one, I've always said it, it's completely treatable, and it's completely preventable, And there is no reason for you to be giving a vaccine for a disease that's completely treatable, and completely preventable. And on top of that, the death rate of COVID is not that high. So, we need to wake up and realize that these mandates, the vaccines, and everything is taking us right into the book of Revelations where you cannot buy or sell without taking the vax. I tell people my big mantra right now is, get prevention, early treatment, if you get sick, sick, sick and end up in the hospital, don't be afraid, because you know that it's a transition. If you're, if you're a child of God, if you're a Christian, you should not be afraid to die, first of all. So the reason why they can cage us is we're all so scared. So I said, you know, die saved and die human. And don't allow yourself to be genetically modified. These things are no vaccine, they are gene therapy. And if you listen to Dr. Kerry Madej, she actually looked into the microscope and look at some of this vaccine. The stuff she sees in them is horrible. So, we are in a really crazy situation right now where human beings are basically being genetically modified. They want to download our minds connect us on the internet of things. If you listen to somebody like Charles Morgan, or Amy Cruz, that used to work for DARPA, right. And right now, she works at the Platypus Institute which is like human enhancement...

...People in the White House are not being mandated, employees of the CDC are not being mandated, a lot of Democratic lawmakers are not being mandated to get vaccines, and people that work for Pfizer are not being mandated. Why is the general public being mandated? Why are they trying to give vaccines to children that barely get COVID? There's a very sinister thing going on. And the reason why it's going on and on is because we comply. For those that were vaccinated out of fear, out of, they didn't want to lose their jobs, repent, ask God to forgive you, and ask the Lord to cleanse that stuff out of you. You know the blood of Jesus works, but

*please don't get vaccinated. **Get Hydroxychloroquine, get Ivermectin, you can go to our website, Drstellamd.com and get hydroxychloroquine or Ivermectin. You can get vitamins. Keep yourself healthy and realize that this whole thing, all of this whole vaccination and everything COVID And everything is a Trojan Horse for vaccines. They want to scare 7 billion people, and they want all of us to get jabbed, they want all of us to get corrupted. And the good news is the end time is Jesus might be coming soon. And at the end of the day, Jesus wins.***

Conradson: *So Fauci and the CDC they are trying to cover up the efficacy of these drugs, these actual treatments for COVID-19. What do you think of them, do you think they're killing people?*

Immanuel: *I think they're evil. I don't think they're even human. Because you cannot be a human, and be that evil. When we talk about evil Fauci's an epitome of evil. If you know what Fauci did in the days of, AIDS. The things that Fauci does, Fauci is the epitome of evil. And you know what, the good news about it is, at the end of the day, all of us are going to have a creator, that judges.*

Conradson: *So where do you think is this a big Pharma of money scam?*

Immanuel: *I think it is deeper.*

Conradson: *Deeper? Depopulation?*

Immanuel: *Depopulation. Bill Gates had a video, that said that if you do good vaccines, they can cut down the world's population by 10 to 15%. Bill Gates has done a lot of atrocities in India in Africa and everything. If somebody tells you they want to depopulate the world with 15% with vaccines. Why would you let them sponsor a*

vaccine? And Bill Gates' hands are in every vaccine. And then of course we talk about the whole Mark of the Beast, 666 thing. The Moderna vaccine has luciferase. Bill Gates tracking system is 0202666, the one that they are trying to pass into Congress is HR 060606. What else has to happen before people start thinking "Maybe the name of the Beast, the Number of the Beast is being released?" And it is just going to be a matter of time for the Mark to take over. I tell people get Hydroxychloroquine for prevention, Ivermectin. Get treated early. Give your life to Christ. X

Conradson: Thank you, and we're where do we get these real treatments?

Immanuel: Go to [doctorstellamd.com](https://www.doctorstellamd.com). We also have the vitamins we put together that has vitamin C, D, Zinc and Quercetin in one pill. Just stay safe, stay safe America. Don't let these people kill you. Don't let them genetically modify you. Die saved, die human.

These people are evil.

During a TED talk in 2010, Bill Gates said that, through new vaccines, health care, and reproductive health services, we can lower the population growth by 10 to 15%.

They are suppressing the real life-saving treatments for COVID-19 like Hydroxychloroquine and Ivermectin. Why should we believe this experiment on humanity is not a death trap?
