Winning the War Against Therapeutic Nihilism and the Rush to Replace Trusted Treatments with Untested Novel Therapies

Dr. Peter McCullough gave an extensive rundown on everything Covid-19 vaccines, from safety and efficacy to the fraudulent “approval” of the Pfizer vaccine.

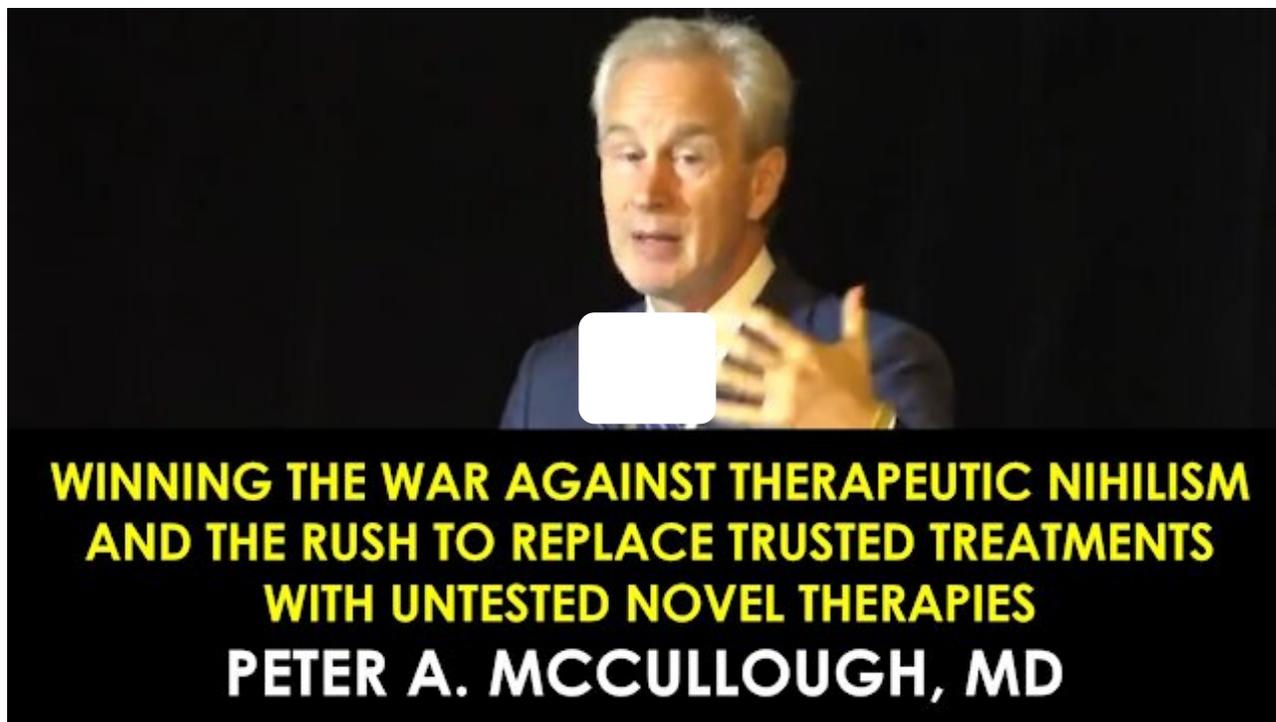

Dr. McCullough is a cardiologist and was vice chief of internal medicine at Baylor University Medical Center and a professor at Texas A&M University. McCullough is editor-in-chief of the journals Reviews in Cardiovascular Medicine and Cardiorenal Medicine. He was and is an advocate for early COVID-19 treatment that included hydroxychloroquine.

This speech by Dr. Peter McCullough was highly recommended by a highly successful and trusted friend in the medical community. Dr. McCullough says, “The disability of this vaccine will go down in history as an unbelievable atrocity.”

The information he shares here is a wake-up call to Americans. Over **15,000 are now dead** from the COVID vaccine, 25,000 are permanently disabled. Why does the CDC and FDA continue to promote these dangerous vaccines?

This is an important presentation from a very respected and knowledgeable expert in his field.

Here are the slides from Peter's talk from earlier this month.
