

National Open Letter Against Forced COVID Vaccinations

To: College and University presidents across America

Ladies and gentlemen,

I, a Real American and a concerned citizen, demand that you end your burdensome and unnecessary vaccine requirement for the students at your schools.

These policies are forcing students to share their medical information in violation of their right to privacy. They are impeding students' academic progress. They are an exercise of power that you simply do not have.

Thousands of students across America have made it clear—they don't want this vaccine, and you can't force them to take it. End your draconian policies today!
