There It Is – Study Finds Predominance of Antibody-Resistant SARS-CoV-2 Variants in Vaccine Breakthrough Cases in San Francisco Bay Area

October 3, 2021 | [Sundance](#) | [675 Comments](#)

What this study finds is exactly what vaccine developer Geert Vanden Bossche (Belgium) has been predicting. The predominance of antibody-resistant SARS-CoV-2 variants in vaccine breakthrough cases from the San Francisco Bay Area, California. [[DATA LINK HERE](#)]

The California study finds that vaccinated individuals are more susceptible to COVID variant infections than unvaccinated. Geer Vanden Bossche has been warning that vaccine

antibodies would suppress natural antibody responses. The vaccine antibodies take control of the immune system and defend only against a targeted virus.

Among vaccinated individuals, a COVID variant virus is not recognized by the specialized antibodies provided by the vaccine, and the natural antibodies have been programmed to stand down.

([MedRxiv](#)) Associations between vaccine breakthrough cases and infection by SARS coronavirus 2 (SARS-CoV-2) variants have remained largely unexplored. Here we analyzed SARS-CoV-2 whole-genome sequences and viral loads from 1,373 persons with COVID-19 from the San Francisco Bay Area from February 1 to June 30, 2021, of which 125 (9.1%) were vaccine breakthrough infections. Fully vaccinated were more likely than unvaccinated persons to be infected by variants carrying mutations associated with decreased antibody neutralization.

[...] These findings suggest that vaccine breakthrough cases are preferentially caused by circulating antibody-resistant SARS-CoV-2 variants, and that symptomatic breakthrough infections may potentially transmit COVID-19 as efficiently as unvaccinated infections. ([read more](#))

Be careful around vaccinated people, because they can carry a more resistant form of COVID-19. Additionally, the highly specialized antibodies in the vaccine create a need for a booster for each antibody resistant variant. Israel is already on booster #2.

Dr. Vanden Bossche has been using Israeli data and showing how the widespread vaccination rates were [creating pressure on the virus to mutate](#) into variants with higher levels of contagion. The unvaccinated group has been keeping the pressure down by defeating the virus and carrying natural immunity. However, as the unvaccinated population is increasingly made smaller, the pressure on the virus to mutate increases. Subsequently, these mutations stay at higher or more effective levels of infection.

Israel is already on its second round of booster shots.

The long term impacts of antibody dependency are unknown. Some doctors and scientists are already worried that normal cancer fighting antibodies will become dormant and we could see [an explosion of unusual cancer clusters](#) due to antibody suppression caused by the COVID vaccines. [[Diminished natural killer cells](#)]

Remember, no one knows exactly what this targeted vaccine will do to the overall human immune system as it responds to other viruses or infections. The vaccinated population are the human trial subjects, and the unvaccinated population are the control group.

In the [U.K. data study](#) there were:

157,400 Delta variant cases amid the fully vaccinated (26.52% of total cases), and 257,357 Delta variant cases amid the unvaccinated (43.36% of total cases). However, when it came to severe outcomes 63.5% of deaths were from the fully vaccinated group. [\[source\]](#)

Table 5. Attendance to emergency care and deaths of sequenced and genotyped Delta cases in England by vaccination status (1 February 2021 to 12 September 2021)

Variant	Age group (years)**	Total	Cases with specimen date in past 28 days	Unlinked	<21 days post dose 1	≥21 days post dose 1	≥14 days post dose 2	Un-vaccinated
Delta cases	<50	497,105	119,611	49,527	30,359	83,009	85,407	248,803
	≥50	95,587	35,596	7,602	314	7,129	71,991	8,551
	All cases	593,572	155,252	58,003	30,674	90,138	157,400	257,357
Deaths within 28 days of positive specimen date	<50	204	N/A	7	6	11	48	132
	≥50	2,336	N/A	32	11	138	1,565	590
	All cases	2,542	N/A	41	17	149	1,613	722

2,542 DEATHS
1,613 FULLY VACCINATED
63.5% OF TOTAL DEATHS

The “reason” given for the need for booster shots has been the vaccines lack of durability- the vaccine effectiveness is reportedly in the range of six months.

HOW do we know whether the vaccine durability is the issue?

As this article indicates, Anti-body Dependent Enhancement (ADE) could be rendering the immune system useless against variants.

“ Fully vaccinated were more likely than unvaccinated persons to be infected by variants carrying mutations associated with decreased antibody neutralization.”

So what good will a booster shot of the same vaccine do?

Anyone aware of solid scientific information that proves waning durability versus decreased antibody neutralization?

Karl has all the info you want regarding this. He has ALL the facts and figures. It's ADE and waning durability both. This man is on it.

 Reply to *Cris*

Yes, the vaccine antibodies decrease at up to 40 percent each month! That is why the initial antibody counts are far far above natural immunity. (they knew) AFTER 6 months they are of little to zero value. Any the vaccine harms, plus ADE, (likely manifesting, and OAS, plus other issues like the mutation pressure discussed plus general immunity issues plus many long term potential nightmares.

And yes, a large percentage of antibodies are non neutralizing. Half way to ADE.

No immune system – vaccinated or unvaccinated – is prepared to defend against a virus that it hasn't yet experienced.

This is how vaccines work – they give the immune system a chance to learn how to defeat a virus.

The vaccinated are more likely to be infected by these variants in this study because **THEY ARE IMMUNE TO THE VARIANTS COVERED BY THE VACCINE.**

The study says nothing about making the immune system useless.

But the variants are not a NEW virus. Aren't they saying this particular way of producing the vax is so specific to a part of the virus that it will mobilize IMMUNITY ONLY TO THE VARIANT NARROWLY DESCRIBED by the vax? Proving relatively useless for slight variations of the same virus?

 7  Reply

Gary Mullennix  October 6, 2021 1:04 pm

 Reply to *P.L.J.*

Actually, the variant is exactly a new virus. It is a Covid Sars virus, in the family, but new to the immune system. A Polar Bear is a variant of a Brown Bear. Viruses change much faster however.

M. Eiford  October 5, 2021 1:06 am

 Reply to MusicMan

Natural Immunity does what you say does not happen. Natural Immunity develops several different anti-bodies, based on different proteins that the virus has, and can therefore protect against different variants that it has not experienced yet. Not saying ALL variants, but those variants that have proteins the immune system recognizes will be controlled.

Leigh  October 5, 2021 7:12 am

 Reply to MusicMan

MusicMan, you actually have it backwards, M Eiford has the correct explanation. Additionally, doctors are proving that the vaccines are destroying the bodies natural immune system, They are finding leukocyte levels plummeting where they are supposed to go up when you have an immune response (what the vax is supposed to produce). Also that the vax are killing of the NK t-Cells. These are Natural Killer t-Cells which are the most important t-Cells that fight cancer.

The “vaccine” will put all test subjects into a full blown AIDS cycle... you have no immunity... dependent upon the boosters... that are now “free”... like a drug dealer... first taste is free...in the coming months... years... we’ll all see what happens. You all that took that sh*t are the research. C-19 is never going away~~ it’s here to stay. Thank you Chi~na and Dr. Falsie...

 Reply to Leigh

What they are shooting you with in the COVID situation is not a vaccine. It messes with your DNA and does not introduce the infecting virus for the immune system to attack. What is scary is that the Covid jab makes the

immune system stand down allowing all kinds of other invaders to attack the system, The more shots the worse it gets.

This is why most people did not die. Viruses mutate continually. This is not new. Less than 1% of infected people died. How did humans survive all this time when Viruses have always existed? The fact is people have died and become extremely sick. There is no such thing as a safe and reliable vaccine for all. Even Bill Gates said if he could vaccinate the whole world, at least 700,000 people would die. It's amazing how the uninformed pretend to be informed. I know for a fact that people I personally know took the injection and they still caught covid. People have in fact died and this is called proof that it's not safe for everyone. We still don't know the long term effects because people bought into taking an experimental injection. They never fully tested these injections and they are experimental. The pharmaceutical industry has no liability. Why are they not standing by their product? This is normal and you will always have Viruses. Covid is in animals and therefore cannot ever be eradicated. You cannot kill a virus. Flu shots don't always work and I never got a flu shot and I never caught the flu.

The immunogenicity developed by the mRNA vaccines is minimal to start with – it does not provide sterile immunity.

The limited immunogenicity is not durable – it begins to fade within weeks and is gone in 3-6 months.

The extreme specificity of the minimal and non-durable immune response is unable to protect against strains of the virus.

Because the immune response generated by the mRNA vaccines is AUTOimmune in nature (it attacks your cells, because they are producing a bad protein) a normally operating immune system will stand down, and quickly forget how to fight those antigens.

However, the more often you coerce the immune system to generate an autoimmune response (boosters), the likelihood of your body falling into an autoimmune disorder increases.

Throw in ADE (where the developed antibodies attach to the virus, but instead of

hindering it, actually improve its ability to infect cells) and you have the perfect storm of DANGEROUS and DEADLY.

Beverly  October 5, 2021 2:05 pm

 Reply to RecognizingTruth

All of this is why no mRNA vaccine has ever been approved heretofore. Also far too many animals died in the animal studies.

Vaccination has been a scam from the get go with Jenner. The Vaccine Industry was already bigger than the Coal Industry before Covid. Ever wonder why almost no one has healthy children anymore despite massive improvements in nutrition and hygiene?

This is precisely what honest scientists have warned about since the beginning of the Covid debacle.

It means the “vaccine” was designed to create more virulent strains of coronavirus. The “vaccinated” become the manufacturing plant and the delivery system for the more virulent strains that infect themselves and the greater population.

Political medicine was always about the vaccines – not public health. This study explains the political purpose of the “vaccines” and the economic advantage to the pharmaceutical companies of the diabolical manufacturing/delivery mode.

Vaccines for population control – just like the eugenicists planned. You think I am making this up??

Take a deep dive into the eugenics philosophy of Bill Gates, Klaus Schwab, Henry Kissinger etc etc. You may need wine or other medication to fully absorb the horror and elitism of their intentions. Eugenicists unapologetically argue mass murder for population control is for the greater good. It is their self-serving answer to the Malthusian Dilemma of increasing population and decreasing natural resources.

The aristocratic mind simply does not value human life – except their own of course.

“What if a small group of world leaders were to conclude that the principal risk to the Earth comes from the actions of the rich countries? And if the world is to survive, those rich countries would have to sign an agreement reducing their impact on the environment. Will they do it? The group’s conclusion is ‘no’. The rich countries won’t do it. They won’t change. So, in order to save the planet, the group decides: Isn’t the only hope for the planet that the industrialized civilizations collapse? Isn’t it our responsibility to bring that about?” — Maurice Strong

Also from Maurice Strong. “It is simply not feasible for sovereignty to be exercised unilaterally by individual nation-states, however powerful. It is a principle which will yield only slowly and reluctantly to the imperatives of global environmental cooperation.”

and, “Our concepts of ballot-box democracy may need to be modified to produce strong governments capable of making difficult decisions.”

“If you’ve ever wondered whether you would have complied during 1930s Germany, now you know.” (Banner of a Covid-19 protester)

The saying goes “SEEK the truth and you shall find it” –and NOT that you find the truth by passively ACCEPTING what authorities tell you is the “truth” like herd animals unthinkingly obey their shepherds’ orders. Yet almost nobody ACTIVELY SEEKS the truth, they only PASSIVELY ACCEPT as “truth” what the authorities tell them and so become UNthinking members of “herd stupidity.”

Do YOU actually SEEK the truth or are you a mindless member of “herd stupidity”?

Find out in “The 2 Married Pink Elephants In The Historical Room – The Holocaustal Covid-19 Coronavirus Madness: A Sociological Perspective & Historical Assessment Of The Covid “Phenomenon”” by Rolf Hefti at <https://www.rolf-hefti.com/covid-19-coronavirus.html>

You can ONLY see the official lies IF you SEEK the truth.... it means you must LOOK “behind the curtain” — behind the official narratives.

“If you’ve ever wondered whether you would have complied during 1930s Germany, now you know.

Who is going to the Concentration Camps though?

To make a comparison with Germany 1933-’45, the Vaccinated would have to be locked up for their own protection.

Chris October 8, 2021 3:30 pm

Reply to Lew Styles

Yeah, and? Considering that we have quarantine facilities for people who aren't sick and mass "shielding" plans in central authority documents, it seems we are on the right track, doesn't it? They've burned books in the streets, censored dissent, ostracized doctors and medical professionals, instituted social credit and "show me your papers" campaigns. Segregating the non-compliant "unclean and diseased" en mass is not a far off leap considering the mass hysteria, fear, and delusion of the problem, itself. It will not take much. If one prominent politician said to round people up, most of the population would jump to it.

Worse Than the Disease? Reviewing Some Possible Unintended Consequences of the mRNA Vaccines Against COVID-19

Stephanie Seneff (1) and Greg Nigh (2)

(1)-Computer Science and Artificial Intelligence Laboratory, MIT, Cambridge MA, 02139, USA, Email: seneff@csail.mit.edu

(2)-Naturopathic Oncology, Immersion Health, Portland, OR 97214, USA

ABSTRACT

Operation Warp Speed brought to market in the United States two mRNA vaccines, produced by Pfizer and Moderna. Interim data suggested high efficacy for both of these vaccines, which helped legitimize Emergency Use Authorization (EUA) by the FDA. However, the exceptionally rapid movement of these vaccines through controlled trials and into mass deployment raises multiple safety concerns. In this review we first describe the technology underlying these vaccines in detail. We then review both components of and the intended biological response to these vaccines, including production of the spike protein itself, and their potential relationship to a wide range of both acute and long-term induced pathologies, such as blood disorders, neurodegenerative diseases and autoimmune diseases. Among these potential induced pathologies, we discuss the relevance of prion-protein-related amino acid sequences within the spike protein. We also present a brief review of studies supporting the potential for spike protein “shedding”, transmission of the protein from a vaccinated to an unvaccinated person, resulting in symptoms induced in the latter. We finish by addressing a common point of debate, namely, whether or not these vaccines could modify the DNA of those receiving the vaccination. While there are no studies demonstrating definitively that this is happening, we provide a plausible scenario, supported by previously established pathways for transformation and transport of genetic material, whereby injected mRNA could ultimately be incorporated into germ cell DNA for transgenerational transmission. We conclude with our recommendations regarding surveillance that will help to clarify the long-term effects of these experimental drugs and allow us to better assess the true risk/benefit ratio of these novel technologies.

🌟 Are VACCINES spreading the COVID-19 Pandemic!? In New Delhi, one of India's TOP Doctors, the FAMOUS Padma Shree Award Winner, Dr K K Agrawal's DEATH due to COVID-19, after getting the 2 doses of the VACCINE, seems to indicate that!!

🔥 Strangely, Dr K K Agrawal had given many lectures on COVID-19 before his DEATH and he was also one of the most important PROMOTERS of the COVID-19 Vaccines in India! It is very IRONIC that Dr K K Agrawal got KILLED by the very COVID-19 Vaccines, which he was promoting very staunchly!!

Another thing in this study, no one is mentioning. <50 there were 497,105 cases and only 204 deaths (total) 0.04%. For unvaccinated, 248,803 and 132 deaths, 0.05%. Yet they are pushing a vaccine on them.

👍 1 [Reply](#)

Marilyn Adams [🕒](#) October 17, 2021 2:10 pm

It seems as though this just makes people more and more dependent on the boosters to continually fight off infection. Like it screws up a person's own immune system to fight off disease. No thanks Fauci and gang, I'll go with what God and his crew gave me at birth to fight my infections.

👍 1 [Reply](#)

SareD [🕒](#) October 26, 2021 3:44 pm

Did anyone actually read the study that is cited here? It doesn't say anything about ADE, and several quotes are totally taken out of context. I highly recommend reading the article because it has a very different message than what is stated above.

Here's the article:
